

Instructions

**SoftTop SACK**

# SoftTop SACK

1

Lay the SoftTop Sack flat on the ground

2

Detach the Velcro on the two straps and between the straps

3

Open the SoftTop Sack as wide as possible

4

Place the SoftTop into the SoftTop Sack and pull up the sides one at a time so it sits squarely at the bottom. This is easier with two people

5

Place both front and rear door surrounds in SoftTop Sack

# SoftTop SACK

6

Attach Velcro at the top and then attach the two Velcro straps

7

Use the pouch to store tailgate retainers and hardware

8

Use the side handles or top strap to carry and/or hang the SoftTop Sack

9

Unzip the window bag and place the driver side window inside. The hard plastic side should be placed on the outer side of the bag with the top side of the window facing up

10

Flip a layer of felt and place the passenger side window on the other side of the bag

# SoftTop SACK

11

Flip another layer of felt and place the rear window in the back with the bottom edge at the bottom of the bag. The retainer bar can stay in the window.

12

Place or hang the SoftTop Sack and window bag together

We're eager for product feedback!
